

Version 2.3

IMPORTANT NOTE: The information below are selected highlights of new features, new vehicle coverage, technician reported defects and improvements. You may notice many more in the software that are just too numerous to identify individually.

New Vehicle Coverage:

This release is another installment of the new 2010 models and older systems. More filling out of the USA Domestic vehicles and new Asian support added. Specific focus was on Special Tests like actuator tests and adjustments for servicing late model vehicles.

As with all our new model year releases, new systems, actuator tests, adjustments and repair information are also added for previous years. In some cases 5 to 10 years back!

There are defect fixes, improvements, etc. as in each release!
